Numesh Jayamanne

QA ENGINEER | MANUAL, AUTOMATION & API TESTING

ISTQB Certified Tester | BSc Software Engineering – First Class Honours

No 111, Elliott Road, Galle, Sri Lanka · +94 77 225 8966 · Gmail · GitHub · LinkedIn

PROFESSIONAL PROFILE

QA Engineer with hands-on experience in functional, regression, API, UI, cross-platform and automation testing, and domain knowledge across banking, gaming, real-time live events and HRIS. Currently testing a large-scale mobile banking app and admin portal for Sampath Bank. Holds a BSc in Software Engineering with First Class Honours and the ISTQB Foundation Level certification. Nearly 10 years of HR leadership, up to Head of HR at Weligama Bay Marriott Resort & Spa, plus a self-built HRIS, provide deep HR/HRIS domain knowledge, strong stakeholder communication and process discipline.

CORE EXPERTISE

Quality Engineering	Manual Testing · Automation Testing · Functional · Regression · API · UI · Exploratory · WebSocket / Real-time · Cross-browser & Cross-device · Test Case Design & Execution · Defect Management · Agile QA
Automation & API Tools	Playwright · Selenium · Postman · Bruno · RESTful APIs
Languages & Data	JavaScript · C# / .NET 8 · PHP · SQL / MS SQL Server · MySQL · HTML / CSS · React · Angular
Tools	Git / GitHub · VS Code · Visual Studio · Figma · Adobe XD · Advanced Excel
Domain Knowledge	Banking (mobile app & admin portal) · Mobile Gaming · Real-time Live Events · Web & PWA · HRIS & HR Operations (employee lifecycle, HR workflows, performance evaluation)

PROFESSIONAL EXPERIENCE

Associate Quality Assurance Engineer — Arimac Lanka (Pvt) Ltd
June 2026 – Present

Finspace Team · Project: Sampath Bank Vishwa (mobile banking app & admin portal)

- Perform QA for Sampath Bank Vishwa, a large-scale banking solution made up of a customer mobile app and an admin portal.
- Design and execute functional, regression and UI test cases across mobile and web platforms.
- Contribute to automation testing to strengthen regression coverage and release readiness.
- Identify, document, track and verify defects throughout the development lifecycle.
- Collaborate with developers and project stakeholders in an Agile team.

Associate Quality Assurance Engineer — IMI Games (Arimac Lanka (Pvt) Ltd)
Dec 2025 – Apr 2026

Intern – QA / Software Engineer — IMI Games
Jun 2025 – Dec 2025

Mobile Gaming Platform — 60+ iOS & Android Games

- Performed end-to-end QA across 60+ iOS and Android mobile games, covering functional, regression and exploratory testing, authentication, leaderboards, rewards, game events and device/OS compatibility.
- Ran device/OS matrix and network-condition testing to validate UI scaling, performance and stability.
- Identified cross-game and backend issues (score synchronisation, data inconsistencies) and supported defect triage, fix verification and release regression evidence.

Hiru Star App — Multi-Platform Live TV Voting System

- End-to-end QA across admin panels, Unity apps and mobile apps: real-time voting, judge scoring, golden vote logic, multi-round event rules and live LED display behaviour.
- Performed WebSocket testing for real-time updates, synchronisation and event-driven UI behaviour.
- Tested across DEV, UAT, Staging and production-like environments; verified backup/recovery flows and ran parallel-run rehearsals (Admin + Unity + mobile) for zero-error live broadcasts.

IMI 3.0 Website / Progressive Web App (PWA)

- End-to-end QA for a scalable gamified-marketing web platform and PWA, covering functional, regression, UI and API testing.
- Validated APIs for Coin Management, Leaderboards, Rewards and Spin Wheel: data integrity, business logic and response-time SLAs.

- Owned defect management end to end (identify, document, track, RCA support, fix verification), plus cross-browser/cross-device checks and QA documentation (test cases, test data, defect logs, execution reports).

DOMAIN PROJECT — HRIS

Interli HRIS — Human Resources Information System

Final-Year Software Engineering Project · London Metropolitan University · PHP, MySQL, JavaScript, HTML, CSS

- Designed and developed an HRIS combining HR domain knowledge with software engineering principles, including HR workflows and employee management.
- Implemented rule-based performance evaluation using weighted scoring, and operational forecasting from business and operational data.
- Built administrative and employee-facing interfaces; applied database design and system testing throughout.

PREVIOUS EXPERIENCE — HUMAN RESOURCES

Hospitality Human Resources · Sri Lanka

2014 – Jul 2023

- **Manager – Human Resources (Head of HR)** — Weligama Bay Marriott Resort & Spa; Araliya Beach Resort & Spa
- **Senior Executive HR / Assistant Manager – HR** — The Kingsbury PLC
- **Welfare Officer / Junior Executive (HR)** — Cinnamon Grand Colombo
- Led HR operations and employee processes, working with senior management and operational departments to turn business requirements into HR processes and documentation.

EDUCATION & CERTIFICATIONS

BSc (Hons) Software Engineering — First Class Honours
London Metropolitan University

ISTQB Certified Tester — Foundation Level
Completed January 2026

Pearson BTEC HND in Computer Science
Specialisation: Software Engineering

Professional Qualification in Human Resource Management
CIPM
